Miss Patterson, who is about to be tried igain for the murder of Caesar Young. Miss Patterson, who is about to be tried again for the murder of Caesar Young, was brought into court with the Smiths Mr. Band told the court that a mistake had been made in drawing up the indictment against Miss Patterson, and that it tended to prejudice her position in the capital case. In asking for the dismissal of the indictment against her, he reserved the right to re-submit. Miss Patterson was then remanded back to the Tombs prison. The effect of the action will be to prevent her counsel from getting at the grand jury minutes, which might have alded in her defense.

False Pretenses, Not Extortion. False Pretenses, Not Extortion.

In support of his contention that the facts charged against the Smiths did not constitute compliacy, their counsel read an intercepted letter from Julia Smith to Caesar Young, in which the writer stated that Miss Patterson was about to become a mother, which is one of the allegations in the charge of compliancy to get money from Young. Counsel said the statements as to Miss Patterson's health did not bear out the allegations, and that the alleged threatening of Young with a revolver, if true, was an independent offense. He declared that false pretenses could not be considered extortion.

BOSTON, April 14-The Mystic Print

and Disc Works, a New Jersey corporation located in Medford, was placed in the hands of a receiver today on petition of the Locke Coal company of Malden and others. John D. Street, treasurer of the Mystic company, was named as receiver. Clarence M. Merriam, a well-known Kansas man and Boston investor, who committed suicide here Tuesday, is named by the petitioners in their statements filed with the court.

Merriam, it is alleged had been given \$2,000 on demand and promisory notes by the Mystic company under an agreement that he was not to sell or transfer them until he had accomplished the sale of \$75,000 in bonds which the company had decided to issue. The petitioners allege further that the holders of these notes, which can not be located, would proceed gainst the Mystic company and that this sight cause the company embarrassment.

It is stated that the company owes \$77,000 and has assets of \$100,000.

THE CITY IS ASKED TO PAY MONOPOLY FOR PATCHWORK AND INCOMPETENCE

The hearings before the Council Committee develop the fact that the Utah Light and Railway Company is not able to supply light and power to the city and the people as cheaply as others can, because that company's plant is deficient in equipment, scrappy in power supply,

But why should the city be asked to pay for these defects? It is the company's business to remedy its deficiencies, and it is sheer impudence in its representatives when they ask the city to take their company's disability into account.

The fact that the company cannot meet the requirements of modern conditions is an argument for it to give way to some other which can meet them; not a reason why the city should build it up at the expense of the people.

There is an offer before the Council by a responsible man, to put in a modern, sufficient, and perfect plant, and to supply from it the needed light and power at a much lower rate than the worn-out corporation consents to do, and of a better quality, measuring up fully to the standard. Why should the Council devote itself to the upbuilding of decreptitude, when full vigor and efficiency can be had on better terms?

That is a question which the people are asking, and one for which they demand a reply. Citizens, besiege your Councilmen and insist up on knowing why they tie themselves to the old monopoly that has oppressed them so long with high rates and poor service, and ignore the better proposition which they have before them. There must be a reason. Find out what it is!

This matter is coming to a crisis. Act quickly, and with determined purpose. Demand that the Councilmen shall represent the people, not the monopoly!

QUESTIONS OF WATER RIGHTS

Complications Have Arisen.

Special Commission to Deal With International Problems.

Government Irrigation Projects Have Brought Protests From Both Mexico and Canada.

WASHINGTON, April 14.-The Presio deal with three important which have risen relative to the diversion of and interference with the course of international rivers. This commission consists of Judge Penfield, solicitor for the State department; Special Assistant Attorney-General McBurch and Prof. F. H. Newell of the geological survey, and

has just had its first meeting. To Deal With Mexico and Canada. All the questions before the commission lave formed the subject of extensive correspondence between the State departrespondence between the State department and Mexico on the south and the Domlnion of Canada, as represented by Great Britain, on the north. On the south there is that long standing controversy growing out of the damming of the Rio Grande and the use of the waters of the upper river for irrigation purposes on the right bank of the river. The Mexicans claim that the Rio Grande is navigable and consequently that this diversion of the water is in violation of the international law.

Diversion of Colorado

Diversion of Colorado

To the westward the commission is to deal with the Colorado river, where the upper waters in American territory also are about to be diverted, to the loss of the Moxican ranches in lower California.

On the north the Milk river projects in Montana have alarmed the Canadians. Arising in the United States, this river tlows into Canana and back again into Montana. The Canadians have been making large use of the waters on their side, which has led to a project by the people of Montana to cut out the entire bend in the river on the Canadian side by a canal, the effect of which would be to completely deprive the Canadians of water.

New Questions to Deal With. The commission will have to deal with some emirely new questions referring to

some entirely new questions reterring to riparian rights.

As a result of the conference with Secretary Taft it was decided that as projects such as the international damacross the Colorado river had been authorized by Congress there was nothing to do but to proceed with the work leaving the broader question of international riparian rights to be treated diplomati-

Dunne Loses Hope of Settling Strike

Teamsters Insist Garment-Workers Strike Be Settled First-Almost a Riot Last Night.

CHICAGO, April 14.-After a day and large part of the night spent in confer-ences with both sides in the Montgomery Ward & Co. strike, Mayor Dunne late tonight announced that he had made no progress toward a settlement of th trouble and he did not seem hopeful that an adjustment will come in the nea future. Further conferences will be held tomorrow, but it is not thought tonight by either the employers or the strikers that any arrangement will be reached. Great Obstacle to Settlement.

The great obstacle to settlement is that the teamsters insist that the strike of the garment workers, now four months old, be arbitrated before the teamsters return to work and the employers insist that the teamsters return to work before anything is done concerning the garment workers.

Mayor Dunne endeavored tonight to bring about a joint conference, but neither side would consent to meet the other.

Police Protect Wagons.

The firm of Montgomery Ward & Co. succeeded in sending more goods to the freight depots today than at any time since the commencement of the strike.
All of the wagons were under police protection, but there was less violence than
on any of the preceding days.

Mayor Dunne declined tonight to discues the charges brought to his attention
that a bribe had been offered for the settlement of the strike.

The Man Attacked

Non-Union Men Attacked.

A fight between union and non-union men which almost attained the magnitude of a riot took place tonight at State and Van Buren streets, where a crowd of union men attacked four non-union men who were leaving a restaurant. The non-union men fought desperately, but were overwhelmed by numbers and were compelled to run. All of them sustained scarp wounds, and James T Galley, one of the union attacking party, was stabled in the arm. His injuries are not serious.

PRESIDENT HAS **VERY CLOSE CALL**

Roosevelt Misses a Wreck by Minute.

Special Narrowly Escapes Dashing Into Wrecked Coal Cars.

We Are Lucky," Declared the Chief Magistrate When Informed of Narrow Escape.

Special to The Tribune. WALSENBURG, Cole., April 14.-Dashing through southern Col to Colorado Springs with the throttle holding the running time at fifty miles an hour, President Roosevelt escaped death in its most fearful form at Walsenburg by the space of one minute. Sixty seconds after his special tore through, sevseconds are in a special fore through, several gondola cars loaded with coal and sidetracked to permit the passage of the President's special suddenly collapsed. At the same time the engineer in charge of a freight attempted to push his train back on the main track. As a result, the main line was covered with splintered gondolas and tons of coal.

Pilot Train Ten Minutes Ahead

The pilot train which was supposed to precede the special had gained time and passed the place where the wreck occurred fully ten influes ahead of the special. Had the Presidential train been one minute later it would have crashed into the debris and railroad officials here are of the opinion that the loss of life would have been heavy as the main line at this point is on a high embediment at the foot of which is a gorge filled with great boulders.

Statement About Japan Taken as a Friendly Manifestation.

ST PETERSBURG, April 11.-Dispatches from Washington showing that Japan officially notified the United States. when the runture occurred, that no act of hostility would take place until after a formal declaration of war had been made, whereas hostilities broke out February S formal deviations for the formal deviation of war was not formally made until February 19, attracts much attention here.

Although the dispatches arrived too late.

Although the dispatches arrived too late for newspaper comment this morning, there is considerable apoculation as to the cause of the publication of the statement at this time. It is regarded as a friendly manifestation towards Russia on the part of the United States. Russia having always contended that the statement of M. Kurino, former Japanese Minister at St. Petersburg, to Foreign Minister Lamsdorft when he presented the note severing diplomatic relations, in which he expressed hope that the rupture was only temporary, gave Russia no reason to anticipate attack without warning in the shape of a declaration of war.

EL PASO WINS SUIT.

Supreme Court Decision Quiets Title to Much Property.

El. PASO, Tex., April 14.-The United States Supreme court has affirmed the decision of the Federal court for the Westcision of the Federal court for the Western district of Texas in the case of W. J.
Warder against the city of El Paso.
Warder claimed half the city under the
old Spanish grant and alleged that the
sland really belonged to Mexico, but that
the flood waters of the Rio Grands
had carried it across the border and into
United States territory.
The decision of the Federal court in
effect was that inasmuch as the United
States was exercising jurisdiction through
its custom houses, the land was in the
United States and this decision is now
affirmed. It quiets the title to aimost
half the property in the city.
